Ensure you have the correct reader downloaded and installed

In order to read any of the Best Publishing Company eBooks you will need to have the appropriate reader. The following readers are recommended:

- Adobe Digital Editions (for Windows and Mac desktops and laptops)
 - You can download it here: <http://www.adobe.com/solutions/ebook/digital-editions.html>
- Bluefire Reader (for all iOS and Android devices)

Ensure you have setup your Adobe ID

When you launch your reader for the first time it will ask you to login with your Adobe ID, or create an Adobe ID. This is an important step as it will enable you to have access to your eBooks on other devices, allowing you to move your eBooks to another device when you upgrade or replace your device.

Although it is possible to download eBooks without an Adobe ID, it is not recommended because the eBooks are no longer portable.
